

RAFIF SAVA ADYVKA PRATAMA

Junior Programmer

I am a programming junior who was born in 2009. Since 2021-2024 I started to enter the world of technology, at that time I had mastered several technological sciences, namely developing games, websites, applications, design and robotics. I also have valuable experience, namely teaching and backpacking in Asia in 3 countries.

EXPERIENCE

TEACHING

I have nine experiences teaching technology in junior high schools. I teach elementary, middle school, vocational school students and school teachers

BACKPACKER

This experience is the one I remember the most because I visited 3 countries in one week. Singapore, Malaysia and Thailand are the countries I visited while backpacker

DEVELOPING A WEBSITE

I once created a website for a car rental business. He ordered to create a website to make it easier for clients to find and use his car rental services
